## 1.- PRESENTATION OF CEARA.

**Cuadros Eléctricos Araujo, S.L. (CEARA)** is a company specialised in the manufacture of **electrical control, power and distribution panels, as well as electrical substations panels.**

The company guarantees the **automation and protection of the industrial facilities** with cutting-edge technology, a large operating space and several warehouses to perform large-scale projects.

The company has almost 40 years of experience and has acquired knowledge and know-how guaranteeing a high-quality work and the highest level of perfection in its finishing. The company's work philosophy is based on a continuous quality check system and a strong commitment with its customers which leads top companies such as SCHNEIDER ELECTRIC, ASEA BROWN BOVERI (ABB), ACCIONA, ENDESA, EMASESA, CEPESA, OMEXOM, DAM o BEFESA to continue trusting **CEARA** after many years of collaboration.

### 1.1.- HISTORY.

The experience and professionalism gained in the electricity industry over the years has allowed the company to consolidate a business project which firmly promotes the incorporation of new services and innovative techniques as well as the use of cutting-edge technology in response to the current demands of society without having to refuse to our traditional values.

With effort, professionalization and a careful strategic vision, **CEARA** went from a 600 m2 workshop in 2009 to having 6,000 m2 operational facilities in 2021 in Alcalá de Guadaira (Seville), a well-established industrial area in the city and representing a clear commitment to offer customers accessibility and closeness to the professional.

C/ San Nicolás Tres, Nº 18  
41500, Alcalá de Guadaira (Seville) - SPAIN

The business consolidation acquired over the years has led to the expansion of different business areas, collaborating actively with companies dedicated to new energies and participating in international projects.

The result has been translated into the trust placed in this company by many customers, both individuals and companies, with credit worthiness and guarantee of proven efficiency and know-how.

## 1.2.- FACILITIES.

**CEARA** is composed of large facilities of 6.000 m<sup>2</sup> intended for electrification and metallic carpentry equipped, among other means of production, with Shear, Hydraulic Press-break with numerical control, Hydraulic Punching, Paint Booth and Drying Oven, Plotting Equipment for cable labelling, Test Desk and Electrical Test Equipment (insulation, rigidity).

Cuadros Eléctricos Araujo, SL  
C/ San Nicolás Tres, Nº 18  
41500, Alcalá de Guadaíra (Seville) - SPAIN

The Quality Management System of **CEARA** and the rigour with which the work is performed guarantee that all products developed comply with the requirements demanded by our customers, and all the works undergo strict test parameters.

In addition, **CEARA** is composed of highly experienced employees in the engineering department and in the production department (experts in mechanics, electricity and painting). Cutting-edge technology is applied in each process without leaving behind the concept of craftsmanship as well as the love for the work well done and the care in every detail.

### 1.3.- PRODUCTS.

Our products are designed and produced according to our customers' needs with a system that integrates quality management and occupational risk prevention measures.

C/ San Nicolás Tres, Nº 18  
41500, Alcalá de Guadaíra (Seville) - SPAIN

At all times, **CEARA** maintains strong collaboration bonds with its customers during product manufacture, carries out demanding test protocols, and follows strict compliance with current legislation.

The most relevant products, among others, are listed below:

- Boards for electrical substations
- Power cabinets
- Low-voltage electrical distribution panels
- Control boards for industrial plants
- Photovoltaic plants

## 1.4. - CUSTOMERS AND SUPPLIERS.

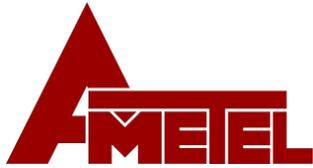

**CEARA** actively participates in the development and consolidation of customers and manufacturers by collaborating in national and international projects as well as by providing high-quality products and refined finishing. **CEARA** radiates a strong commitment for quality and customer satisfaction, and therefore we select manufacturers with great experience and proven reputation.

Our products incorporate several added values such as flexibility to adapt to any technical specification and any delivery time, and reliability of supply which allow our customers to maintain its presence in the electricity market, as well as in the sector of new energies by also participating in the development of relevant petrochemical plants.

All these elements have consolidated a know-how highly valued by the market which contributes to foster loyalty between **CEARA** and its customers. Our customers are our main and best guarantee.

MAIN CUSTOMERS

Cuadros Eléctricos Araujo, SL  
C/ San Nicolás Tres, Nº 18  
41500, Alcalá de Guadaira (Seville) - SPAIN

**CEARA** adds value to its service by integrating itself with leading manufacturers to guarantee a high-quality supply.

Manufacturers are considered by **CEARA** to be essential collaborators and key elements for the provision of its services and for the compliance of its quality objective. Therefore, **CEARA** is always focused on strengthening its relations with the leading manufacturers within the electricity market.

In particular and with respect to SCHNEIDER ELECTRIC and ASEA BROWN BOVERI, S.A. (ABB), **CEARA** is registered as a collaborating company.

## 2.- CERTIFIED QUALITY SYSTEM.

**CEARA** is highly committed with the supply quality, as well as with the constant search for improving its manufacturing process.

**CEARA** strongly commits with the integration of social, labour and environmental principles regarding the company management by constantly seeking to improve and to be more efficient in the business, as well as by trying to extend the socially responsible behaviour to the environment in which it operates with the aim of contributing to a sustainable development.

**CEARA** has been awarded with the certificate of its Integrated Quality System in accordance with legislation UNE-EN-ISO 9001:2015 assessed by the authorised certifying body which applies to all the company's management systems. This certificate consolidates the company's competitiveness in the market.
